

Capabilities Overview

Integrated Service Offerings

Troy has been serving the Energy industry continuously for more than 70 years. Our mission is to safely and efficiently deliver full lifecycle services while providing a daily culture of “Doing the Right Thing.”

Driving results while facilitating full client engagement

Integrated Project Development & Construction

Troy provides comprehensive, integrated solutions which are unique to the Energy industry, with the flexibility to perform EPC/turnkey services or any combination of services – based on the needs of each specific client and project.

- EPC/turnkey
- Early project feasibility, pre-FEED & FEED
- Program/project management & controls – *first class innovative digital tools*
- Constructability
- Engineering
- GIS and mapping
- Integration of survey, environmental & land services
- Procurement
- Construction

Maintenance Capital

Digital project controls reporting and analytics - *integrated* with GIS in common data environment

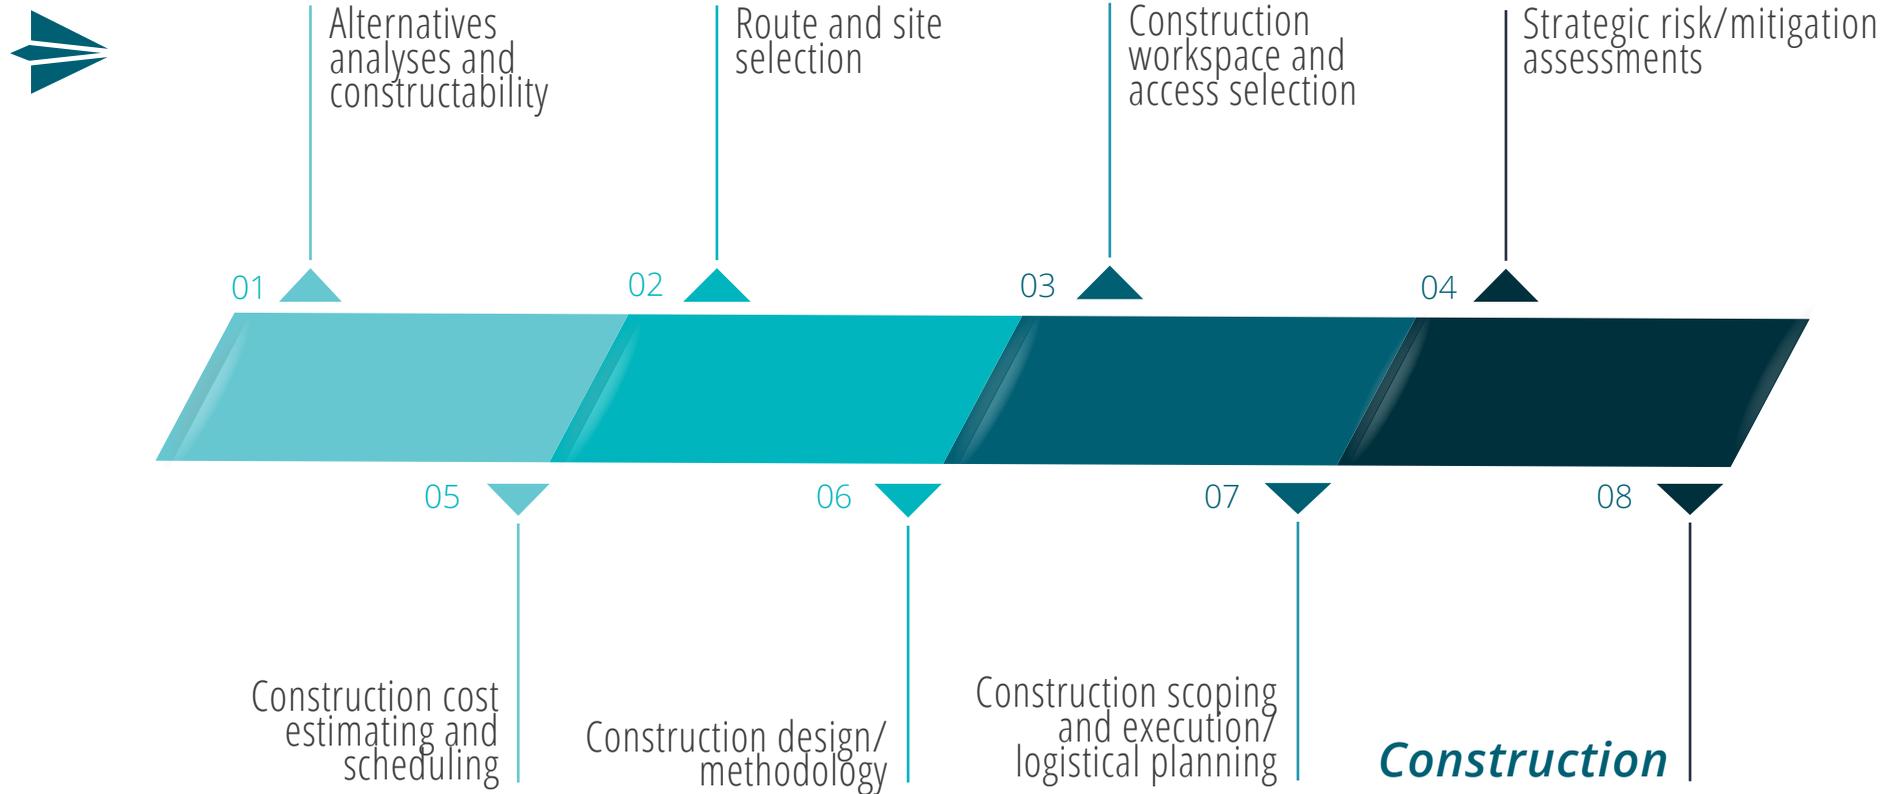

Managing actual project performance vs. baseline projections throughout project - *all disciplines*

- ❑ Progress reporting
- ❑ CAPEX/TIC estimating
- ❑ Cost control and forecasting
- ❑ Schedule control
- ❑ Earned value
- ❑ Integration/interface management
- ❑ Document/data management
- ❑ Risk management
- ❑ Quality management
- ❑ Contract conformance and administration
- ❑ Supplier performance
- ❑ Health & safety monitoring
- ❑ Change management
- ❑ Close-out/turn-over packages

Health, safety and environmental focus

Integration with engineering, GIS, survey, land, environmental and procurement

Project management and controls through all project phases

Extensive value and cost savings — total project performance and Troy services

Troy has been safely servicing the pipeline and maintenance industry continuously for over 70 years. We have completed numerous major long linear pipeline projects, and we routinely construct projects with multiple pipeline spreads. We also consistently perform a large number of smaller and medium-sized pipeline projects.

- ❑ 2-inch to 48-inch pipe
- ❑ 1 mile to 500 miles
- ❑ Horizontal directional drills
- ❑ Boring
- ❑ Mechanized welding
- ❑ Stick welding
- ❑ In-house QA/QC
- ❑ Congested corridors
- ❑ Rock trenching
- ❑ Blasting
- ❑ Push/wet lay
- ❑ Shallow water barge lay
- ❑ Ag lands/drain tiles
- ❑ Hydrostatic testing
- ❑ Heat tracing

Troy has safely and efficiently installed a wide range of facility projects throughout the United States. Our facility construction teams are highly specialized with versatile capabilities to meet the demands of each project type. We have substantial experience and flexibility to construct facilities in accordance with varying client and customer specifications.

- ▣ Compressor stations
- ▣ Turbine, reciprocating & EMD
- ▣ Pump stations
- ▣ Meter/regulator stations
- ▣ Amine
- ▣ NRU
- ▣ CO2
- ▣ Cryogenic plants
- ▣ Storage facilities
- ▣ Greenfield
- ▣ Brownfield
- ▣ Bi-directional
- ▣ Civil
- ▣ Mechanical
- ▣ Gas coolers & filter separators
- ▣ Conversion
- ▣ Facility reversals

Troy has provided pipeline maintenance work since 1950. Our maintenance group continues to perform substantial repeat business for a wide range of clients and project types. Our consistent results have yielded extensive cost and schedule benefits due to performing a large volume of similar projects.

Certified teams:

- Asbestos coating removal
- Emergency response
- Above-ground painting/lead abatement
- Maintenance valve settings
- Anomaly digs
- Re-routes
- Replacements
- Relocations
- Rehabilitation
- Abandonments
- DOT projects
- Re-classifications
- Line adjustments
- Emergency response
- Launchers & receivers
- Hydrostatic testing
- Recoating
- ROW maintenance
- Tactical & modernization programs

Providing Customer Satisfaction through **Safe Execution,** **Integrity** and **Accountability**
